| <p><b>231</b> The influence of the annealing of silicon crystals at 1200 °C on the Hall effect and magnetoresistance<br/><i>P.I. Baranskyy, G.P. Gaydar, P.G. Litovchenko</i></p> <p><b>235</b> Investigation of electron correlations effect on energy spectrum of two-electron systems in crystals with strong electron-phonon coupling<br/><i>N.I. Kashirina, V.D. Lakhno, V.V. Sychyov</i></p> <p><b>243</b> Total energy, equation of states and bulk moduli of Si and Ge<br/><i>A.R. Jivani, P.N. Gajjar, A.R. Jani</i></p> <p><b>247</b> The effect of strain on the thermodynamic properties of Ge-Si, Ge-Sn, Si-Sn, Si-C thin solid films<br/><i>V.G. Deibuk, Yu.G. Korolyuk</i></p> <p><b>254</b> Deep-level defects in CdSe/ZnSe QDs and giant anti-Stokes photoluminescence<br/><i>M.Ya. Valakh, Yu.G. Sadofyev, N.O. Korsunskaya, G.N. Semenova, V.V. Strelchuk, L.V. Borkovska, M.V. Vuychik, M. Sharibaev</i></p> <p><b>258</b> Effect of neutron irradiation and doping level on defect structure formation in gallium arsenide crystals<br/><i>M.S. Seitmuratov, V.P. Klada'ko, O.I. Gudymenko, L.I. Datsenko, I.V. Prokopenko</i></p> <p><b>261</b> The mechanisms of current passage and excitation of electroluminescence in GaSe:Er single crystals<br/><i>B.G. Tagiyev, R.S. Madatov, F.Sh. Aydayev, T.M. Abbasova</i></p> <p><b>264</b> Photo-enhanced defect reactions in CdS:Ag crystals<br/><i>L.Yu. Khomenkova, I.V. Markevich</i></p> <p><b>268</b> Dynamics of photoinduced instability in ferroelectric photorefractive crystals caused by space recharging trap waves<br/><i>A.N. Morozovska, V.V. Obukhovskiy, V.V. Lemeshko</i></p> <p><b>284</b> Study of non-reversible photostructural transformations in As<sub>40</sub>S<sub>60-x</sub>Se<sub>x</sub> layers applied for fabrication of holographic protective elements<br/><i>A.V. Stronski, M.Vlcek, S.A. Kostyukevych, V.M. Tomchuk, E.V. Kostyukevych, S.V. Svechnikov, A.A. Kudryavtsev, N.L. Moskalenko, A.A. Koptuykh</i></p> | <p><b>288</b> Modeling optical spectra and obtaining information on parameters and features of semiconductor structures<br/><i>V.A. Vasiljev</i></p> <p><b>294</b> Optical size effects in thin gold films<br/><i>S.A. Kovalenko, M.P. Lisitsa</i></p> <p><b>300</b> Influence of surface dimensional effects and interband transitions on light absorption in aluminium<br/><i>L.Yu. Melnichenko, B.B. Titarchuk, I.A. Shaykevich</i></p> <p><b>303</b> Electric and photophysical properties of holographic and electroluminescent media based on amorphous molecular semiconductors<br/><i>A.J. Al-Kadhimi, N.A. Davidenko, N.A. Derevyanko, A.A. Ishchenko, N.G. Kuvshinsky, V.A. Pavlov</i></p> <p><b>307</b> Holographic interferometry as a method to study conformational changes in macromolecules<br/><i>Y. Barabash, V. Kharkyanen, M. Zabolotny, N. Sokolov</i></p> <p><b>312</b> Many-Body theory of all-optical quantum well logic gates<br/><i>M.F. Pereira, M. Prado, R. Sampaio</i></p> <p><b>316</b> Characterization of MOS structure using low - k dielectric methylsilsequioxane with evaporated and sputtered aluminium gate<br/><i>K.C. Aw, K. Ibrahim</i></p> <p><b>319</b> A free-space alignment technique for active optical waveguide components<br/><i>A. Karim</i></p> <p><b>322</b> Effect of mechanical stress on operation of diode temperature sensors<br/><i>V.L. Borblik, E.F. Venger, Yu.M. Shwarts</i></p> <p><b>328</b> Investigation of the effect of technological parameters on efficiency of chemical string cutting of semiconductor materials<br/><i>M. Yu. Kravetsky, S.A. Sypko, A.V. Fomin</i></p> <p><b>332</b> Balance model for contactless chemo-mechanical polishing of wafers<br/><i>N.N. Grigoriev, M. Yu. Kravetsky, G.A. Paschenko, S.A. Sypko, A.V. Fomin</i></p> <p><b>337</b> Growth kinetics of PbS nanocrystals in organo-metallic Langmuir-Blodgett films studied by optical absorption spectroscopy<br/><i>Yu.N. Savin</i></p> |
